

# Wizard2011

Description Editor					
<table border="1"><thead><tr><th>Information</th><th>Close</th></tr></thead><tbody><tr><td colspan="2"><p>This editor enables you to create valid microhtml content according to the BiBiServ microhtml-schema. Some common html-constructs are not allowed in microhtml (e.g. tables and &lt;h4&gt;-tags). If you click "save" your content will automatically be transformed into valid microhtml. If your code contains invalid tags, the editor will try to convert them to microhtml tags (&lt;br&gt;-tags for example will be replaced by a &lt;p&gt;-tag structure). If this conversion is not possible, remaining invalid tags will be deleted.</p></td></tr></tbody></table>		Information	Close	<p>This editor enables you to create valid microhtml content according to the BiBiServ microhtml-schema.
