Wizard2011

Reference

Information	Close

This is the editor to create references for your tool. References are stored in the BibTex-format within the final XML-description. The following fields are required (fields in brackets are optional): article: authors, title, journal, year (, note, doi, url) book: authors, title, publisher, year (,note, doi, url) inproceedings: authors, title, year (,note, publisher, doi, url) manual: authors, title, year (,note, doi, url) masterthesis: authors, title, school, year (,note, doi, url) phdthesis: authors, title, school, year (,note, doi, url) proceedings: authors, title, year (,note, publisher, doi, url) techreport: authors, title, institution, year (,note, doi, url) On the right side of the screen you have an overview of existing references. You can edit and delete existing references and add new ones. Please note that if you use the "edit" or the "+" button your current reference is not saved!
